**YOU CAN'T HAVE AN  
ECONOMY OF THE FUTURE  
USING THE TRANSPORT  
SYSTEMS OF THE PAST.**

**Without stronger transport  
investment the wheels of our  
economy will slow, and that  
affects you and your future.**

Australian  
Automobile  
Association

## A NEW ECONOMY MEANS NEW TRANSPORT SYSTEMS

The state of our roads and our lack of public transport options is costing Australians money.

Lots of money in fact. More than our country can afford.

The mining boom is over and Australia has no choice but to modernise its economy. But new ideas can't run on old roads and rail systems.

Keep Australia Moving is your chance to tell your candidate you want the next Australian Government to invest in transport, because your job, your business, and your family's safety depend on it.

### What can you do?

This election visit the website and tell your local candidate to keep Australia moving.

A message from Australia's motoring clubs on behalf of their 8 million members.
